EX-SERVICE MEN'S BUREAU

Committee Will Have General Headquarters in Richmond, Va.

TO HELP THE MEN

Committee To Visit Many Cities in the State To Give Men Necessary Data.

The following letter written by Governor Westmoreland Davis to Nevell S. Greenway, clerk of the court here, explains itself:

Mr. N. S. Greenway,

Clerk of the Corporation Court, Alexandria, Va.

Dear Mr. Greenway:

By an act of the Congress approved August 9, 1921, there has been established the Veterans' Bureau under the President of the United States to provide for the proper care and treatment of ex-service men. An effort is now being made by the Veterans' Bureau to get in personal contact with all ex-service men of Virginia, in order that they may be informed of the rights, privileges and benefits to which they are entitled under the various Acts of Congress.

In order to effect this, a committee has been formed in Virginia composed of representatives of the Veterans' Bureau, the American Red Cross and the American Legion. This committee will have its general headquarters at 804 Chamber of Commerce building at Richmond. It is the plan of the committee, during its campaign in Virginia, to visit the following cities: Richmond, Norfolk, Cape Charles, Danville, Lynchburg, Roanoke, Bristol, Staunton, Harrisonburg, Winchester and Charlottesville. You will be advised when the committee will be in your vicinity.

This committee is prepared to impart full information concerning all matters relating to the rights and care of ex-service men. All matters pertaining to medical and hospital treatment and care, insurance, compensation, and vocational training will be taken up for adjustment by the committee and cleared promptly through the Veterans' Bureau at Washington. Assistance will be rendered by the committee in the preparation of all necessary papers and forms required in making application for compensation or vocational training. Competent examinations can be made of all applicants for assistance without delay.

The committee will furnish transportation to ex-service men who apply for assistance, from their homes to the nearest city in which the committee will sit; provided the applicant will furnish the committee with a certified copy of his discharge. In case the discharge certificate is not available, the committee will accept a certificate from the Clerk of Court in the applicants city or county to the effect that the clerk knows that the applicant was honorably discharged from the service of the United States. This certificate should set forth the applicants name, rank in the service, the organization with which he served, etc.

In view of your official position and your opportunity for wide acquaintance with the ex-service men of your community, local draft boards, your assistance and cooperation with the Veterans' Bureau's efforts to get in touch with the ex-service men in your community will be appreciated.

I trust that you will give this matter the widest publicity possible in order that the boys of your community may receive the full benefits to which they are entitled under the Acts of the Congress.

Very truly yours,
Westmoreland Davis,
Governor.

STAGE IS SET FOR PICNIC

Affair To Be Given Monday By Sunday Schools of City.

AFTERNOON PROGRAM

Songs, Reading, Sports, Ball Game—At 3:30 p. m.—Excellent Program Has Been Prepared.

The stage is all set for the big Sunday school picnic to be held at the George Mason high school Labor Day. The kiddies and the older folks as well expect to spend the Labor Day when nobody works having a real picnic. The picnic grounds are easily reached by bus or electric car, Lloyd station being the nearest. The high school is just up the hill.

Swings, hammocks, volley ball net, and many other attractions are being installed today so that they will be all in readiness for the Monday afternoon picnic. The grass has been cut about the place and the Arlington county school board has been exceedingly generous in putting the place in shape for the enjoyment of the picnicers. The crowd will doubtless begin going to the grounds about 10:30 in the morning and family, class and school picnic dinners are planned. Some even plan to take their suppers and spend the early evening on the grounds.

The program of activities will begin at 1:30 in the afternoon. It will begin with the "dedication of the first lady" by Dr. E. V. Register, and conclude with a baseball game at 3:30 between St. Paul's and Second Baptist teams. The youngsters have a large part in the program of the sports and games. The games will be arranged for both young and old and Mr. Wallace, of the Y. M. C. A. will direct them.

The program is about as follows:

Song, everybody, led by W. E. Dunn.

Invocation, Rev. O. P. Lloyd.

Dedication of First Lady, Miss Margaret Duncan, of the Second Baptist Sunday school, Dr. E. V. Register, president Alexandria Pastors' association.

Response for the Second Baptist school, Superintendent George K. Bender.

Song led by Mr. Dunn.

Reading, A. J. Rhodes, president Player's Club.

Song, ukelele accompaniment, Misses Helen Outcalt and Irma Wolf.

Reading, Mrs. W. E. Dunn.

Sports and games, dashes, jumps for both boys and girls; cracker eating contest for boys; mail driving contest for women; needle threading contest for men; shoe hustle for boys, putting the medicine ball for both boys and girls; relays, pioneers against Girl Scouts; tug-o-war, Baraca Class against the Henry K. Field class, 20 men to a team.

3:30 baseball game, St. Paul's vs. Second Baptist.

Two or three quail courts are to be established in many of the men plan to renew their acquaintance with the educated horse shoe game. The tennis court is in good shape and those wearing tennis shoes are invited to make use of it. Refreshments and novelties of the noise making variety are being overlooked to make the day one long to be remembered.

Man Arrested Twice In Twenty-four Hours

Twenty-four hours after being given his freedom on a charge of being drunk and begging on the streets, a man wearing a sailor's uniform, giving the name of Frank Benton, was again arraigned in the police court for being Justice Snow on the same charge. The court first imposed a fine of \$5 and afterward re-sentenced the accused to serve six months. Benton made a plea for mercy without availing.

Yesterday morning Benton was arraigned before Mayor Duncan and he was released. The accused was picked up last night by Policeman Nowland.

A parade will precede the session. There were about 150 Alexandrians in the party including fifteen candidates who will make the pilgrimage to Mecca.

STATE NEWS

Danville.—The Danville Republicans propose to put a G. O. P. candidate in the field for the House of Delegates, and the names of two Danville men will be presented at the mass meeting called for September 7, when delegates will be chosen to the district convention, which is to be held September 14, at Galax in Carroll County to nominate a candidate for Congress from the Fifth district.

Danville.—It was so hot in Danville Wednesday that the river caught fire. Late in the afternoon a volume of smoke rose from a pile of drift-wood and debris left in the rocky bed of the stream by the receding waters, and this was soon followed by a bright blaze. The fire was allowed to burn itself out, as it was far from the shore and immediately under the dam. It is not known how the fire started.

Suffolk.—Invitations have been received here by a number of the Richmond Cotton Club. This dance will be held at the Woman's Club in Richmond on September 6. More than one hundred out of town guests are expected, many of whom will go from Suffolk.

Danville.—Speculation is already being indulged in as to the identity of the successor to Judge A. M. Aiken as city attorney. Mr. Aiken yesterday received his commission as judge from Governor Westmoreland Davis and he will assume his new duties on the circuit court bench within the next two weeks. The territory included in the circuit is the city of Danville where he holds court twice a year. Pittsylvania county and Henry and Patrick county were quarterly sessions are held.

Norfolk.—Effective September 15, railroads of Virginia will reduce interstate rates on building materials and will continue the lower rates until December 31, officials of the Norfolk and Western informed the Chamber of Commerce today. Sand, gravel, crushed stone and furnace slag are affected by the reduction, which aims to help the city by the 40 per cent. advance which the roads got on this and other classes of freight a year ago.

Richmond.—Citizens of Bath county are taking deep interest in the Virginia Historical pageant, according to a letter from J. T. McAllister, of Warm Springs, who yesterday informed Secretary Criffin that he would take part in preparing data to be used in writing the pageant story. Mr. McAllister stressed the point that Virginia has a wealth of material, which is possessed by other states would result in volumes being written.

Danville.—The high cost of orphanage maintenance today resulted in the local institution, which has existed for more than a quarter of a century, closing its doors. The handsome red brick building standing in the grounds donated to the city by J. B. Fitzgerald no longer rings with the voice of children, the inmates having been placed in various denominational orphanages throughout the State. Mrs. Lora Lyle of Knoxville, Tenn., the superintendent, today turned the keys of the deserted building over to the Board of Managers and left for home expressing the view that a grave mistake had been made.

Norfolk.—The Navy Department has called for bids on a number of new structures to be erected at the mine depot at Yorktown. It is estimated that the total amount involved in the various undertakings will be about \$100,000. A power house, a dispensary, two concrete reservoirs, a railroad siding, a trestle and retaining walls are among the improvements to be covered by the bids. September 14 has been set as the date for opening of bids, and the bureau of yards and docks at Washington is the place where a number of local contractors will enter the competition.

Staunton.—J. M. Quarles and Charles Curry, both well known members of the Staunton bar, came to blows in the Circuit Court room here during the argument of a civil case in which they were pitted against one another. Curry procured a whip and applied it strenuously, according to eye witnesses. The lawyers were separated before many blows had been passed.

Danville.—Mrs. Ola Fries, of this city, is a candidate for the position of deputy collector of internal revenue, to succeed William H. Jones, whose resignation became effective today. Jones' position being filled temporarily by M. E. Doyle, Jr., of Lynchburg. Another candidate for the permanent position is J. B. Stovall, of this city, formerly United States commissioner. According to Jones, the office is doing the largest business in its history. When he assumed charge the same amount was \$100,000 per month. This month it is \$12,000. In 1919 the U. S. Treasury was enriched by \$1,800,000 through Federal income tax returns.

Winchester.—State Senator Harry F. Byrd, of Winchester, has been elected chairman of the Democratic Committee of the Seventh Congress.

REVENUE BILL UP THURSDAY

Secretary To Explain Policy for Current and Succeeding Years.

OLD PLAN DROPPED

Asked for \$3,830,000,000—Finance Committee To Study Details of the Bill.

Washington, Sept. 3.—Secretary Mellon of the Treasury, will go before the Senate Finance Committee, considering the Tax Revision bill late passed by the House, next Thursday to give his views as to the internal revenue policy of the country for the current fiscal year and those immediately following.

His visit to the committee is awaited with keen interest, since members of the committee have indicated that they will be guided largely by the Secretary's views as to the amount of internal revenue necessary for the Government in this fiscal year. Some of the members also have intimated that the Secretary's views as to sources of revenue will have great weight.

The Ways and Means Committee, in framing the Tax Revision bill, drew heavily on the recommendations of Mr. Mellon's recommendations in the card. Mr. Mellon asked for \$3,830,000,000 this year from internal revenue. That meant additional taxes, as the existing laws would yield, it is estimated, \$3,570,000,000.

The Ways and Means Committee insisted not only that there should be no new taxes but that existing taxes should be reduced. Subsequently, after the President had sided with the committee since the Harding Administration had promised large reductions in expenditures, Secretary Mellon gave the Ways and Means Committee an estimate that \$3,000,000,000 in internal revenue was needed in the 1922 calendar year—mainly from this year's business.

The question now being asked is whether the Secretary, in stating his views to the Finance Committee, will stand on the last statement given the Ways and Means Committee or will submit another estimate. The best information is that the Secretary himself has not yet decided and will not until early next week.

Fresh studies will be made by the Treasury Department of expenditures it is expected, the Secretary will determine to whether to advise the Finance Committee to make effective as of January 1 last the repeal of excess profits taxes and the elimination of all surtaxes on individual incomes above 32 per cent. That was his advice to the Ways and Means Committee, and it was one of the very few instances in which the committee agreed with his judgment. But the conference of Republican members of the House when they met in conference on the bill changed the date to January 1 next.

There is no doubt that Mr. Mellon believes that the change should be made as of January 1 last, but no assurance has come from the Treasury that he will ask the Finance Committee to change the House's work, although it is likely that many of the Republican members of the Finance Committee would be glad to have him re-announced January 1 last. Pending Mr. Mellon's appearance the Finance Committee will devote itself principally to study of the details of the bill framed by the Republicans of the House side.

Showing a full and complete line of shoes for every member of the family and with everything tastefully arranged in the windows and inside the store, Alexandria's newest shoe store was informally opened at 619 King street to the shopping public of the city this morning and prospects are that, in time this store will become one of the foremost mercantile establishments of the city.

The store is being operated by Harry Fedder and Company and no effort has been spared to make it an attractive building in every respect. Mr. Fedder has been in the shoe business in Alexandria for the past 8 or 9 years and has a host of friends who are guaranteeing their support and are wishing him every success in his new undertaking.

POLICE COURT

All save one of the eight persons arrested since yesterday forfeited their collateral when their cases were called today in the police court. Hot weather and "Jump Steady" was responsible for the many arrests. The arrests were made by Policemen Nowland, Magner, Cline, Thompson, Bell, Sergt. Campbell, Welker and Padgett.

TWO BALL GAMES.

The Dreadnaughts will meet tomorrow the Triple A's in the second game for the championship of Alexandria. The A's although defeated by a large score, expect to come strong in this game. Flynn, the southpaw marine, will probably work for the A's, while the Dreadnaughts will use either Frye, Hart or Alexander.

Dreadnaughts vs. Marines.

The most important game of the season will be played Monday, "Labor Day" at 3 p. m., against the U. S. Headquarters Marines of Washington. This team is composed of the pick of marines in this section. Lewand, Lucken, Smith and Southern, from the Quantico marines, will be in the lineup. It will be remembered that Southern, pitching for Quantico, held the Dreadnaughts to a 5-4 score.

The left fielder dropping the ball in the ninth inning with three on. Driver, the big six-foot marine, will be the twirling. The last has been pitching half this season with the Virginia State leaguers, and made good with the Virginians, and only being on a three month furlough, had to return to duty with the marine headquarters at Washington. The following will be the lineup:

LIGHTNING KILLS THREE

Severe Storm in Washington Yesterday Afternoon

Washington, D. C., Sept. 3.—Three persons were killed by lightning accompanying the most severe electrical and rain storm of the season here yesterday afternoon about 5 o'clock.

The dead are:

Miss Leone Shepherd 18 years old, of 24 Seaton place northwest.

Frederick W. Hausmann, 26 years old, of 321 K street northwest.

Miss Shepherd and Hausmann, both employes of the United States Shipping Board, were struck while seeking protection from the rain under a tree on the north side of the Ellipse, directly in the rear of the White House. The bolt shot down the tree and knocked both to the ground. Miss Shepherd was killed instantly, and Hausmann died 45 minutes later at the Emergency Hospital.

Henry M. Bauman 59 years old, an employe of the United States Soldiers' Home, was instantly killed by a stroke while working in the poultry yard on the Soldiers' Home grounds. He was knocked to the ground and badly burned. Associates, who rushed to his aid, say he was dead upon their arrival. The body was removed to the Soldiers' Home morgue.

57 DEAD IN W.VA. FIGHT

Troops Reach Logan; Calm Follows Night of Continuous Firing.

AUTOS FIRED UPON

Miners To Quit When Troops Arrive Is General Opinion—Miners Repulsed With Loss.

Madison, W. Va., Sept. 3.—Three hundred Federal troops arrived on the Logan-Boone line this morning.

Communication has not yet been established between these troops and Col. C. A. Martin, commanding headquarters here.

Logan, W. Va., Sept. 3.—In the mist which hung over the rough mountains this morning was the pungent odor of powder smoke.

Another night of fighting, has passed. Firing occurred over the entire front of 25 miles, but, according to early reports, no general attack was attempted by the miners.

The firing consisted chiefly of sniping. Automobiles carrying reinforcements and reliefs from Logan Court house to Ethel were fired upon and several shots were fired into the town of Logan.

Federal troops are expected here late this afternoon. It was reported the regulars had arrived in Boone county and were preparing to advance in the miners' rear.

That the miners will quit when the troops arrive was the general opinion. However, Logan men say it will be many weeks before order is completely restored. They say trouble will continue in isolated sections and that the authorities will be confronted by a tremendous problem in ironing out the situation.

The most severe fighting late yesterday and early today is reported at Blair Mountain and Crooked creek. A heavy attack was launched late last night at Crooked creek. The miners were able to make slight progress, but were later thrown back with losses, according to officials here.

Fifty-seven are dead and as many wounded as a result of the nine days of industrial strife.

The casualty list is unofficial, but is believed to be conservative being estimated from reports reaching headquarters of the Logan army at the courthouse.

Already the war has cost the Logan county authorities and coal operators more than \$500,000. It was officially stated that \$35,000 a day is being spent to maintain the defensive forces; more than 3,500 men are either on the 35 mile front or in reserve at the town of Logan.

In addition to the cost of keeping the rams in food and other supplies, an enormous sum was spent for equipment which included everything from army field kitchens to airplanes. Three airplanes were purchased by the Logan coal operators prior to the breaking out of hostilities.

Other planes have been brought in since and have been in action dropping bombs on the miners. Privately owned airplanes also engaged in the bombing expedition.

Back of the attempted invasion of the Logan county coal fields by union miners and sympathizers from Kanawha county—the New River district—lies along story of industrial conflict.

WASHINGTON DAY BY DAY

(From Our Special Correspondent.)

Washington, Sept. 3.—That was an interesting piece of rumor that came over the seas from Paris to the effect that the Kaiser had escaped from Holland in an airplane. Washington officials were particularly interested in the report. They were asking each other in case the rumor were confirmed just where would the former ruler of Germany land. It is certain that he would not dare to seek refuge in his once proud domain. He would hardly be permitted to touch at any port in England, France, Italy or other European country unless it were Turkey. What the United States would do to him if he should make any flight across the Atlantic Ocean and land on our shores would be well worth watching. If the Kaiser knows when he is well off he will remain in Holland.

Officials at the State Department were not in the least disturbed today when they read the message of President Obregon to the Mexican Congress declining to enter into any formal treaty of amity and commerce with the United States. It was pointed out by them that this did not mean by any means that General Obregon had turned down all offers from this government for more amicable relations between the two Republics. It was declared that the complete text of the opinion of the Mexican Supreme Court is awaited with interest in Washington as having a direct bearing upon property rights of American citizens in Mexico. This opinion is now on its way to the National Capital.

It is a strange turn that the present chaotic conditions in the coal fields of West Virginia have taken. While organized labor generally has always protested and protested most vigorously against federal interference in their difficulties with their employers, the action of Brigadier General H. H. Bandholtz, in command of the regular troops in the state, in asking the War Department to send federal aid was concurred in by officials of the United Mine Workers of America. In previous encounters between operators and miners in the various fields in which disturbances have taken place, the union heads have demanded that the difficulties be settled without recourse to federal troops. In this instance, however, Uncle Sam's soldiers have been welcomed as if they had come there on invitation of the miners themselves.

President Harding planned to spend the week-end and over Labor Day on board his yacht Mayflower if conditions in the West Virginia coal fields did not demand his presence at the White House. The Chief Executive is very fond of these trips down the placid Potomac and into Chesapeake Bay and whenever he can get away he invites a few personal friends to be his guests on the trips.

A number of President Harding's Cabinet members have received nicknames during the past month. For instance, Secretary of War Wood is dubbed "Mars," Secretary of the Navy Denby "Neptune," and Postmaster General Hays the winged "Mercury." Up to date, no name has been found for Secretary of State Hughes for the other members of the President's official household.

If the report from Manila to the effect that Major General Leonard Wood has agreed to accept the Governor Generalship of the Philippines is correct it will mean that the General will have to relinquish his rank in the army. Secretary of War Wood is now engaged upon a report for the President on conditions in the islands, especially dealing with the demand of the natives for independence.

There are other matters of a military character which will form part of the report to be made to the Chief Executive by General Wood, who is expected to have a very important bearing upon our future in Far Eastern questions. General Wood is popular with the rank and file in the Philippines and his choice as Governor General meets with almost universal approval.

Postmaster General Hays was asked by the Gazette correspondent today whether he had been bothered by any applicants for the Alexandria postoffice.

"Not a single applicant," replied Mr. Hays.

BADLY SCALDED

Engineer Creel And Fireman Haynes At Emergency Hospital

Raymond L. Creel, engineer of 404 North Payne street, and Joseph Haynes, fireman of 1010 Prince street, were badly scalded at 9:30 o'clock last night at the Washington Terminal, Washington, by escaping steam and also both are suffering from the effects of inhaling gas while in the tunnel.

They were in charge of an engine that was to take troops to the West Virginia coal field and when in the tunnel something struck the pipe connecting with the whistle of the engine, causing it to burst and both men were overcome and badly scalded by escaping steam. The men had to grope their way out of the tunnel as best as they could. Later they were

MONTICELLO

It is suggested that Monticello, the home of Thomas Jefferson, be purchased for a summer residence for our presidents. We do not approve of this disposition of that famous mansion, but we do believe that it should be acquired and preserved for posterity in much the same way as Mount Vernon.

The lengthy editorial in the New York Times in regard to this matter is a tissue of falsehood and slander. The assertion that Monticello, while a "product of the genius of the man who fixed upon our political vocabulary the phrase declaring that all men are created equal, is studiously and deliberately undemocratic, even aristocratic, in its planning," is a labored absurdity. It was built by a scholar and a philosopher, against the serene years of old age, when having laid down the cares of a life spent in the service of his country and mankind, he might retire to the seclusion of his books and works of art. A comparison of its extreme simplicity of interior and unpretentious architecture, with the palaces of the nobility and royalty of Europe, shows the falsity of this preposterous contention on the part of the Times.

Whatever the method, we have not the slightest doubt that the home of one of the greatest men of our history, and an undeniable benefactor to all lovers of liberty throughout the ages, will be finally secured as a legacy to posterity. If no other way be found, it might be that a popular subscription would accomplish the desired object.

In fact, it may be that this will be the final solution of the matter. We are inclined to think there might be found a million disciples of the framer of the immortal Declaration of Independence who would contribute to a fund to preserve the home he designed and built, and the consecrated ground in which his earthly remains are sepulchered.

FAIRFAX COUNTY FAIR

The Fairfax County Fair Association has published an elaborate premium list of its Ninth Annual Fair, to be held September 27, 28, 29 and 30th. The work is well gotten up, and contains many features of general interest. The Historical Sketch of Fairfax County is especially noteworthy.

We understand that the fair association would welcome exhibits from Alexandria, and strongly recom-

mend our merchants to get into immediate communication with the secretary, Mr. Charles F. Broadwater, at Fairfax. This matter should be taken up and pursued with the usual enterprise and energy of our local merchants. Fairfax County is Alexandria's own territory, and we should lose no opportunity to cultivate and retain the closest business and social relations.

We hear it rumored that Alexandria may have a day all to herself at the coming fair, and hope she may avail herself of the courteous privilege, if such be the case.

We wish the Fairfax County Fair Association every success in its ninth annual fair, and feel sure that we can pledge the hearty cooperation of the citizens of Alexandria.

TWO WOMEN'S VIEWS

The Rosslyn Monitor of yesterday has an editorial, written by Elizabeth N. Barr, commenting on Congresswoman Robertson's views, as given out to the press, concerning women at the Disarmament Conference. The editorial is written from much the same viewpoint as heretofore expressed by the Gazette. We are inclined to think that Miss Elizabeth would represent her sex in the lower House of Congress to the greater advantage of her constituents than our esteemed friend, Miss Alice!

THE EARTH

(For The Gazette)

The earth has but one satellite—the moon.
Two-thirds of the earth's surface is covered with water.

The earth is never nearer to the planet Mars than 36,000,000 miles.
The earth makes a complete revolution around the sun in one sidereal year.

The earth sustains a pressure of 70,000 tons exerted by the light of the sun.
The earth is 4,000,000 years old according to the estimates of the geologists.

The earth's total land area is 33,123,171,200 acres, of which forests cover 8,097,319,827 acres.

The earth's atmosphere is generally supposed to extend some forty miles in height.

The earth's orbit is 598,000,000 miles in length. The earth travels that distance in going around the sun.
The curvature of the earth is such that a straight line a mile long would be 2.4 inches from the surface at either end.

The earth is about 3,000,000 miles nearer the sun on January 1 than on July 3, but its surface being slantingly placed toward the sun in the Jan-

uary period the heat is lessened instead of increased.

Ladies, Allow Us To Introduce

Dr. Kahler Shoes

THE SHOES THAT YOU
HAVE LONGED FOR

Kahler shoes are built on specially constructed lasts, developed and improved as a result of over 67 years of scientific study of the human foot. They are an institution, older than the Statue of Liberty or Brooklyn Bridge, yet always new in their conformity to correct standard or good form. The Kahler shoe is built along scientific principles over specially designed lasts to give restful support to arches that give way under the strain of walking or standing. They are for people who desire a shoe with plenty of toe room, glove-fit from heel to tip and pleasing lines.

The first drawing illustrates the Straight Line and Combination Last. The Combination Last is two widths narrower at the heel and instep than across the ball. The snug heel prevents the heel from slipping. The Straight Line Last allows the foot to retain its normal shape without the distortion of the toes that produce bunions.

The second drawing illustrates the Cupped Heel Seat and Metatarsal indentation. Your foot sinks into a comfortable socket at the heel, so that instead of slipping forward it is held firmly and snugly in the proper resting place, insuring an evenly balanced step.

Just beneath the arch of the foot, hidden between the flexible leathers of the sole, is a handforged springy tempered steel shank. This allows full muscle movement and offers gentle support to fallen arches and flat feet.

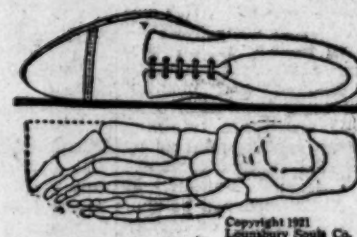

The bottom illustration shows how lacing draws up the arch, and keeps the foot from slipping forward.

When you first see Dr. Kahler Shoes, their smart look will make you wonder how these wonderful features have been combined into such stylish looking shoes, but slip a pair on, have them laced up, and Oh! what contentment! Come in and try on a pair of Dr. Kahler Shoes—You will then realize why they are "The Shoes You Have Longed For."

placed the price of sugar for today at 16 cents per pound, and picnic hams at 47 cents per pound.

These prices should have been as follows: Sugar, 6 1-2 cents per pound and picnic hams 16 cents per pound. The Gazette takes this opportunity of correcting this grievous error.

"CUDDLE UP"

While the season of 1921-22 may not be prolific in novelties, it has brought to the light of favoritism "The Sherman-De Forest Company," who are members of "Cuddle Up," burlesque's newest offering, which comes to the Gayety Theatre for the week of September 4th, as the opening attraction for the season.

The "Sherman-De Forest Company" were especially engaged for their delicious side-splitting comedy act entitled, "The Jev Circus," which is given as a star feature in the last scene of "Cuddle Up," and for droll quaint pantomime it is said to be far above anything of its kind ever offered on our stage.

"Cuddle Up" is produced under the direction of Jean Bechini and contains

one surprise feature after another, all blended together so as to make it an evening's entertainment of happy bright dialogue, catchy music of the whistly kind and portrayed amidst ten settings of scenes of splendor. The cast includes many names well known to theatregoers who demand the best in this line of endeavor, amongst whom may be mentioned Geo. Snyder, Sherman De Forest, Dan Sherman, Mabel De Forest, Jim De Forest, Tess Sherman, George Snyder, Nat Morton, and Yvette Quinn, not forgetting the famous "Cuddle Up" chorus of twenty beauties with tinkling voices and twinkling toes.

Look to Your Fire Insurance Now!

When the weather begins to change for the worse and the wintry winds begin to whistle around the corners of your home, then is the time when you begin wondering if your insurance is in order. Fighting fire in the winter is a precarious task, no matter how large or small the blaze. It cannot be controlled with the ease that attends the battling with the greedy flames in the warm weather and there is more danger to your beloved possessions—that is, providing they are not thoroughly protected by the right kind of fire insurance.

Don't wait until the lesson is brought home to you in such a forcible manner that it will cost you thousands of perfectly good, hard earned dollars to replace what the flames have destroyed. Come to this office today and let us tell you how you can protect everyone of your belongings and set your mind at ease regarding the question of fire, tornado, theft.

We represent some of the largest and most reliable fire and tornado insurance companies in the world today and we have built our reputation around service and satisfaction.

Feel Every Change of the Weather?

A Bad Back Is Usually Worse During Bad Weather.

Is your back like a barometer? Does it foretell every change of weather?

Does every cold settle on your kidneys? Bring aching, throbbing pains? Does it disorder the urine? Have you thought the kidneys may be calling for help?

Thousands recommend Doan's Kidney Pills.

Alexandria testimony proves their worth. Ask your neighbor!

Mrs. Walker Campbell, 707 Pendleton St., Alexandria, says: "I caught a cold and it settled on my kidneys. I had such pains I could hardly catch my breath sometimes. When I bent over it was hard to straighten again, the pain was so bad. My kidneys acted very irregularly, especially at night. I got Doan's Kidney Pills at Duncan's Drug Store and I was entirely cured, although that was over two years ago. I have had no return of kidney trouble since."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Campbell had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

WIFE TAKES HUSBANDS ADVICE

And Is Made Well Again by Lydia E. Pinkham's Vegetable Compound

Springfield, Mass.—"The doctor told my husband that I had to have an operation, otherwise I would be a sickly woman and could not have any more children on account of my weakened condition. I refused to have the operation. My husband asked me to try Lydia E. Pinkham's Vegetable Compound to see if it would not help me. For the first four months I could do but little work, had to lie down most of the time, was nervous and could eat hardly anything, but my husband was always reminding me to take the Vegetable Compound, which I did. Of my eight children this last one was the easiest birth of all and I am thankful for your Vegetable Compound. I recommend it to my friends when I hear them complaining about their ills."—Mrs. M.
